*Plant and Soil* **131**: 305–307, 1991.

# Contents of Volume 131 1991

## Volume 131, No. 1

J. W. M. Pijnenborg, T. A. Lie and A. J. B. Zehnder, Nodulation of lucerne (*Medicago sativa* L.) in an acid soil: Effects of inoculum size and lime-pelleting 1
V. Antunes and E. J. B. N. Cardoso, Growth and nutrient status of citrus plants as influenced by mycorrhiza and phosphorus application 11
A. Savouré and G. Lim, Characterization of an effective *Frankia* (ISU 0224887) isolated from nodules of *Gymnostoma sumatranum* 21
P. Drechsel and W. Zech, Foliar nutrient levels of broad-leaved tropical trees: A tabular review 29
T. Aziz, M. Habte and J. E. Yuen, Inhibition of mycorrhizal symbiosis in *Leucaena leucocephala* by chlorothalonil 47
T. Ishii and K. Kadoya, Continuous measurement of oxygen concentration in citrus soil by means of a waterproof zirconia oxygen sensor 53
A. G. Bengough and C. E. Mullins, Penetrometer resistance, root penetration resistance and root elongation rate in two sandy loam soils 59
P. L. Eberbach and L. A. Douglas, Effect of herbicide residues in a sandy loam on the growth, nodulation and nitrogenase activity ($C_2H_2/C_2H_4$) of *Trifolium subterraneum* 67
S. C. Jarvis, D. Barraclough, J. Williams and A. J. Rook, Patterns of denitrification loss from grazed grassland: Effects of N fertilizer inputs at different sites 77
D. Barraclough, The use of mean pool abundances to interpret $^{15}N$ tracer experiments. I. Theory 89
E. L. Geens, G. P. Davies, J. M. Maggs and D. Barraclough, The use of mean pool abundances to interpret $^{15}N$ tracer experiments. II. Application 97
C. Arrese-Igor, J. I. Garcia-Plazaola, A. Diaz and P. M. Aparicio-Tejo, Distribution of nitrate reductase activity in nodulated lucerne plants 107
P. Hopmans and S. Clerehan, Growth and uptake of N, P, K and B by *Pinus radiata* D. Don in response to applications of borax 115
C. S. Singh, A. Kapoor and S. S. Wange, The enhancement of root colonisation of legumes by vesicular-arbuscular mycorrhizal (VAM) fungi through the inoculation of the legume seed with commercial yeast (*Saccharomyces cerevisiae*) 129
M. H. Saxerud and B. R. Funke, Effects on plant growth of inoculation of stored stripmining topsoil in North Dakota with mycorrhizal fungi contained in native soils 135

### Short communications

D. E. Harry, D. C. Yang and J. O. Dawson, Nucleotide sequence and diversity in 16S ribosomal RNA from *Frankia* 143
B. S. Sidhu and V. Beri, The Rhizobium strain-dependent efficiency of the plant infection dilution frequency technique, as encountered for pigeon pea 147

**Volume 131, No. 2, 1991**

P. H. Nygaard and G. Abrahamsen, Effects of long-term artificial acidification on the ground vegetation and soil in a 100 year-old stand of Scots pine (*Pinus sylvestris*) 151
G. Hardarson, S. K. A. Danso, F. Zapata and K. Reichardt, Measurements of nitrogen fixation in fababean at different N fertilizer rates using the $^{15}N$ isotope dilution and 'A-value' methods 161
S. D. Logsdon and R. R. Allmaras, Maize and soybean root clustering as indicated by root mapping 169
S. K. Kothari, H. Marschner and V. Römheld, Contribution of the VA mycorrhizal hyphae in acquisition of phosphorus and zinc by maize grown in a calcareous soil 177
B. J. Wienhold and J. O. Klemmedson, Nodulation and nitrogen accretion response of *Cercocarpus betuloides* seedlings to phosphorus supplementation and water availability 187
M. A. Ewing and A. D. Robson, The use of MES buffer in early nodulation studies with annual *Medicago* species 199
F. Tardieu and S. Pellerin, Influence of soil temperature during root appearance on the trajectory of nodal roots of field grown maize 207
S. F. Ledgard, Transfer of fixed nitrogen from white clover to associated grasses in swards grazed by dairy cows, estimated using $^{15}N$ methods 215
J. Castellanos, M. Maass and J. Kummerow, Root biomass of a dry deciduous tropical forest in Mexico 225
R. D. Tortosa and M. Cusato, Effective nodulation of rhamnaceous actinorhizal plants induced by air dry soils 229
M. J. Kropff, Long-term effects of $SO_2$ on plants, $SO_2$ metabolism and regulation of intracellular pH 235
E. Stenström, The effects of fooding on the formation of ectomycorrhizae in *Pinus sylvestris* seedlings 247
H. Raitio, Nutritional disturbances of young Scots pines caused by pine bark bugs in a dry heath forest 251
M. L. Gupta and K. K. Janardhanan, Mycorrhizal association of *Glomus aggregatum* with palmarosa enhances growth and biomass 261
M. A. Osman, P. S. Raju and J. M. Peacock, The effect of soil temperature, moisture and nitrogen on *Striga asiatica* (L.) Kuntze seed germination, viability and emergence on sorghum *(Sorghum bicolor* L. Moench) roots under field conditions 265
L. Eltrop, G. Brown, O. Joachim and K. Brinkmann, Lead tolerance of Betula and Salix in the mining area of Mechernich/Germany 275
J. F. Pedersen and R. Rodriguez-Kabana, Winter grass cover crop effects on nematodes and yields of double cropped soybean 287
R. W. Taylor, M. L. Williams and K. R. Sistani, $N_2$ fixation by soybean-Bradyrhizobium combinations under acidity, low P and high Al stresses 293
